

MANARUCHI MOHAPATRA

Master of Technology in Remote Sensing and Geographical Information System (GIS) with specialization in Water Resources

@ manaruchimohapatra@gmail.com

+91-9937665964

Dehradun, India

https://manaruchi.github.io/

CAREER SUMMARY

Experience in application of Remote Sensing and Geospatial technology in the field of cryosphere studies, climate change studies and water resources development. Proficient in satellite image processing and GIS softwares, geospatial analysis and programming using Python, computational hydrology, scalable data driven processing, application of deep learning and machine learning. Highly motivated, quick learner, hard working and experienced in working in a fast paced environment.

PROJECTS

Estimation of daily cloud free snow cover dataset and it's assimilation into hydrological model

Major project, Master of Technology at Indian Institute of Remote Sensing, Dehradun

- Developed a methodology to remove cloud pixels in MODIS daily snow cover datasets MOD10C1 and MYD10C1 using a series of spatio-temporal cloud mitigation filters and Variational Interpolation.
- Prepared a cloud free daily snow cover dataset of 0.05 degree resolution for 2002-2019 over Asia
- Assimilated the cloud free snow cover data into Variable Infiltration Capacity (VIC) hydrological model
- Calibrated the model and calculated the snow melt contribution to the rivers of north west himalaya.

Deep learning based cloud segmentation in AWiFS data

Case Study, Master of Technology at Indian Institute of Remote Sensing, Dehradun

- Developed a U-Net based CNN architecture for cloud and snow segmentation in Advanced Wide Field Sensor (AWiFS) multispectral data

SPIUtility: An open source tool for estimation of Standardized Precipitation Index (SPI)

Master of Technology at Indian Institute of Remote Sensing, Dehradun

- Developed a open-source tool as a plugin in QGIS for handling big data problem in calculation and analysis of SPI in different timescales, an index widely used in drought monitoring.

TECHNICAL STRENGTHS

ACHIEVEMENTS

Recipient of Golden Jubilee Fellowship

Top performer at Indian Institute of Remote Sensing, Dehradun

EDUCATION

Master of Technology in Remote Sensing and GIS with specialization in Water Resources

Indian Institute of Remote Sensing (IIRS-ISRO), Dehradun, India

August 2018 – August 2020

- CGPA: 8.93 (After 3 semesters).

Bachelor of Technology in Civil Engineering

College of Engineering and Technology, Bhubaneswar, Odisha, India

July 2014 – June 2018

- CGPA: 8.14

Intermediate (PCMB)

Saraswati Vidya Mandir, Neelakanthanagar, Berhampur, Odisha, India

June 2011 – July 2013

- Percentage: 82%

Matriculation

Saraswati Shishu Vidya Mandir, Koraput, Odisha, India

June 2011

- Percentage: 91%
